

# ACKNOWLEDGEMENTS

I would like to thank my supervisors, Dr Brian Kruger and Dr Charmaine Korporaal, for taking time out of their busy schedules to help and guide me through the whole process. Thank you for your dedication, advice, and encouragement. I really appreciate it!

To my wife to be, Danielle: Thank you my love for carrying the load with me, not only through the research, but throughout the whole course. Your love, support, and prayers have been just what I needed.

To my research partner, Bev: It was a long haul and at times very frustrating, but we made it. Thank you to you and your diary for keeping me organized, and thank you for all your hard work in doing the initial assessments and follow-up evaluations. I wish you well and all the very best!

To my sixty research patients: Thank you for your participation. Without you this study would not have been possible.

To Anneke Grobler: Thank you for doing my statistics.

To my classmates: Thank you for six great years. It was not always easy, but we all went through it together and in the end it was worth it. May you all be excellent chiropractors with wonderful, prospering practices!

To Mrs Ireland, Pat, and Linda: Thank you for co-ordinating my research and for all your hard work and help in the clinic.

Most importantly, I would like to thank God for all His wonderful blessings and answered prayers. Thank you for carrying me in the palm of Your hand.
